We <3 people who code

We build products that empower developers and connect them to solutions that enable productivity, growth, and discovery.

For developers

For businesses

For developers, by developers

Stack Overflow is an open community for anyone that codes. We help you get answers to your toughest coding questions, share knowledge with your coworkers in private, and find your next dream job.

Public Q&A

Get answers to more than 16.5 million questions and give back by sharing your knowledge with others. Sign up for an account.

Private Q&A

Level up with Stack Overflow
while you work. Share knowledge
privately with your coworkers
using our flagship Q&A engine.
